

# Foreign 2

## King Krule

[Verse 1]

Well see I never even stretched her faith  
This storm would not allow it  
As you observe fools out of place  
The time is spun around it Well I know who calls when you're bare  
Stripped from the moon  
Well I stare sometimes and it tears away  
With your soul You may be foreign here  
But I was foreign there  
Well suffering here is someone's fear  
You may be foreign here  
But I was foreign there  
We're suffering here [Hook]  
Isolated heritage  
This part was never relative  
I watched the way you ran away  
Exhibiting my pride [Verse 2]  
Now watch me burn alive  
As you're forced to cry  
All I know that's inside  
See I was torn by a [?]  
And now they watch me crawl  
See I was warned by a young man  
And now I've lost it all [Hook] x2  
Isolated heritage  
This part was never relative  
I watched the way you ran away  
Exhibiting my pride
