

# Flash X (Original Mix)

## ATB

Shooting stars above the city lights  
Fill the space between you & I  
Falling deep into the dark  
For one moment we forgot  
Who we are And now I look up to the sky  
For shooting stars above the city lights  
But empty spaces in the dark  
Filled with nothing, but our tiny spark! Don't let it fade,

Winter breaks

In the morning light

Hold onto the night

Don't let it fade,

Winter breaks

In the morning light

Hold onto the night

Oh-oh, ooh ooh

Yeah ye-yeah

Hold onto the night

Oh-oh, ooh ooh

Yeah ye-yeah

Hold onto the night

Oh-oh, ooh ooh

Yeah ye-yeah Shooting stars above the city lights

Fill the space between you & I

Falling deep into the dark

For one moment we forgot

Who we are

And now I look up to the sky

For shooting stars above the city lights

Hold onto the night

But empty spaces in the dark

Don't let it fade

Winter breaks

Filled with nothing, but our tiny spark! Hold on to the night

Oh-oh, ooh ooh

Hold on to the night

Oh-oh, ooh ooh

Yeah ye-yeah

Hold onto the night

Oh-oh, ooh ooh  
Yeah ye-yeah  
Hold onto the night  
Oh-oh, ooh ooh  
Yeah ye-yeah  
Hold onto the night
