When I'm Awake

Magna-fi

When I'm awake
Everything is grey and worthless
And when I'm alone
No one even thinks about me
And when I'm in a crowd of people I can't relate
Cuz no one knows the way I feel
Or the way I hate
When I'm awake
When I'm awake
When I'm awake
Tryin for the apathetic
So much for truth
If only I could just forget it
So wear your ribbons and stars like a badge of shame
Share your hollow sentiments and I'll know inside your heart
Inside your heart
When I'm awake
When I'm awake

When I'm awake
When I'm awake
Slipping through the end of everything
(Feel it in my heart in my soul I know it in my brain)
When I'm awake
(Feel it in my heart in my soul I know it in my brain)
I can feel the growing darkness
Deep in the chest
Gathering to come and harm us (ugh!)
When I'm awake
When I'm awake
When I'm awake
When I'm awake
I can't stop the way want
When I'm awake
I can't stop in the way that I want yeah
When I'm awake
I can't stop from killing you
When I'm awake
