

# My Heart Belongs To You

Peabo Bryson

Look at me now, I thought I was near the end  
Then you came along, when I needed a friend  
And you made me love again  
Somehow you found me, wrapped your love around me  
Now my head's up in the clouds when I'm around you  
I just wanna say, everyday, thank God I found you  
I will move heaven and earth, give you my heart, for all that it's worth  
You are mine, 'til the end of time  
I don't care what we're going through, 'til the end, my heart belongs to you  
You are my heart, you are my everything  
The moon and the stars and the air that I breath  
And you gave me strength again  
Somehow you found me, wrapped your love around me  
Now my head's up in the clouds when I'm around you  
I just wanna say, everyday, thank God I found you  
I will move heaven and earth, give you my heart, for all that it's worth  
You are mine, 'til the end of time  
I don't care what we're going through, 'til the end, my heart belongs to you  
You know why, I'm love shy  
I don't want to hurt anymore, I've been hurt  
And I know I, I'm saving my love for you  
I'm gonna keep you safe and warm, I do love you, oh oh  
Now my head's up in the clouds when I'm around you  
I just wanna say, everyday, thank God I found you  
I will move heaven and earth, give you my heart, for all that it's worth  
You are mine, 'til the end of time  
I don't care what we're going through, 'til the end, my heart belongs to you  
Oh, my heart belongs to you
