Networking

The Knife

There's a way to live that's right for us
Like Mayans in Manhattan and Los Angeles
I'm scaling up, I'm breaking down
And I'm doing lunch all over town
Networking, I'm user friendly
Networking, I install with ease
Data processed, truly basic
I will upload you, you can download me
It's a long hard road and a full hard drive
And a sector there where I feel alive
Every bit and every byte
Is written down once on the night
Networking, I'm user friendly
Networking, I install with ease
Data processed, truly basic

I will upload you, you can download me
There's a prayer each night that I always pray
Let the data guide me through every day
And every pulse and every code
Deliver me from the bypass mode
Networking, I'm user friendly
Networking, I install with ease
Data processed, truly basic
I will upload you, you can download me
Networking, I'm user friendly
Networking, I install with ease
Data processed, truly basic
I will upload you, you can download me
