

# O.O.C.

## Mariah Carey

Take 'em around the world on this one  
East Coast, where you at?  
West Coast, where you at?  
Make west, where you at?  
Everywhere you at Forever and ever  
Forever and ever  
It's forever and ever  
Forever and ever It's forever, it's forever  
It's forever, it's forever  
It's forever, it's forever  
It's forever, it's forever Baby, no matter how long it be  
We never lose that chemistry  
And it's the strongest thing  
I've ever experienced So sorry, whatever happened to empathy?  
I know you'll motherf\*\*\*\*\* feel like we  
When you're messin' with the one true lover  
That make you O.O.C. Even though I've been gone for a minute  
It's wrong I admit it, your love's so addictive  
That I get so O.O.C.  
Out of control baby Although we've both moved on to another  
Still long for each other, it's wrong but eternally  
I get so O.O.C.  
And that's just the way it be It's forever and ever  
Forever and ever  
It's forever and ever  
Forever and ever It's forever, it's forever  
It's forever, it's forever  
It's forever, it's forever  
It's forever, it's forever Baby, every time you touch me  
Still get that electricity  
And after all this time  
It don't even make no sense So s'cusa mi, te quiero mucho papi  
Je ne sais pas mais c'est la vie  
When you're messin' with that one true lover  
That make you O.O.C. Even though I've been gone for a minute  
It's wrong I admit it, your love's so addictive  
That I get so O.O.C.  
Out of control baby Although we've both moved on to another  
Still long for each other, it's wrong but eternally

I get so O.O.C.  
And that's just the way it beIt's forever and ever  
Forever and ever  
It's forever and ever  
Forever and everIt's forever, it's forever  
It's forever, it's forever  
It's forever, it's forever  
It's forever, it's foreverIt's forever, it's forever  
It's forever, it's forever  
It's forever, it's forever  
It's forever, it's forever  
(MC, hands in the air)Out of control, let's work  
You out of control, let's work  
I'm out of control, bounce 'em, just bounce 'em  
Just bounce 'em, just bounce 'em, come onEven though I've been gone for a minute  
It's wrong I admit it, your love's so addictive  
That I get so O.O.C.  
Out of control babyAlthough we've both moved on to another  
Still long for each other, it's wrong but eternally  
I get so O.O.C.  
And that's just the way it beIt's forever and ever  
Forever and ever  
It's forever and ever  
Forever and everIt's forever, it's forever  
It's forever, it's forever  
It's forever, it's forever  
It's forever, it's forever
