Post Break-up Sex

The Vaccines

I can barely look at you
Don't tell me who you lost it to
Didn't we say we had a deal?
Didn't I say how bad I feel?
Everyone needs a helping hand
Who said I would not understand?
Someone up the social scale
For when you're going off the rail
Post break up sex that helps you forget your ex
What did you expect from post break-up sex?
Leave it 'til the guilt consumes
I found you in the nearest room
All our friends were unaware
Most had just passed out downstairs

To think I hoped you'd be okay
Now I can't think of what to say
Maybe I misunderstood
But I can't believe you're feeling good
From post break-up sex, helps you forget your ex
What did you expect from post break-up sex?
Post break-up sex that helps you forget your ex
What did you expect from post break up sex?
Oh when you love somebody but you find someone, uh huh uh
And it all unravels and comes undone, uh huh uh, uh huh uh, uh huh uh
Post break-up sex that helps you forget your ex
What did you expect from post break-up sex?
Post break-up sex that helps you forget your ex
What did you expect from post break-up sex?
