

# Upon Further Review

## TCP

                  this is a chance this is a way so lovely  
                  get rid of the past and such  
                  this is a way to live on the earth untouched  
to stop wanting her over and over so muchupon further review im out of luck  
                  upon further review of it because  
                  upon futher review i think im stuck again  
                  my friends ha ha!cant stop where you are  
no matter how hard it gets!look at your hands look at your face its showing  
                  the fight in the world is tough  
its time to unwind in the mind thats enoughupon further review im out of luck  
                  upon further review of it because  
                  upon futher review i think its love . you send  
                  my friendssuppose its an oddity  
                  your eyes looking over me  
                  say yea  
                  this is not the end
