Nothing Is Everything

Dogwood

Is it the wisest choice you made?
Is it the wisest choice you made?
Is it the wisest choice you made?Further instructions will come in a dream
Brain will revolt as the villagers scream
Leaders assemble and gamble for rankAll that was right is now wrong
This means everything to you
Nothing means everything to youTables of measure have overruled fate
You like to bargain to settle debate
We supply choices for few to resolveA lesson to learn in us all
This means everything to you
Nothing means everything to youIs it the wisest choice you made?
What a tragic game you played
It was your equivalent to become
Someone you could not beWhat were their last words
It's all downhill from here
This one will be the last one there trustThis time there's no time
This time there's no timeIs it the wisest choice you made?
Is it the wisest choice you made?
Is it the wisest choice you made?Is it the wisest choice you made?
Is it the wisest choice you made?
Is it the wisest choice you made?Is it the wisest choice you made?
Is it the wisest choice you made?
Is it the wisest choice you made?
Is it the wisest choice you made?
