I Feel The Same

Bonnie Raitt

Say goodbye well I know it's true
I know you're leaving me but I, I'm leaving too
You won't forget me, or the sound of my name
Please believe me I feel the sameIt seems so empty now you close the door
Ain't it hard to believe that you ever lived this way before
All that nothing causes all that pain
Please believe me I feel the sameWell this broken soul that I know a, a heart that's breakin'
You can't make it whole until you know what has been taken
And all those pieces that you find them all your ownI said, "Goodbye," now you know it's true
You say you're leaving me, but honey I'm leaving too
You won't forget me, or the sound of my name
Please believe me I feel the same
Please believe me I feel the same
