

# Live In Me

## Jesse Boykins III

I've been searchin' for  
And one day I will find you  
And you shall live in me  
You've been searchin' for  
And one day you will find me  
And you shall live in me I feel your undertones within my skin  
My? play where to begin  
It's mostly age  
This loneliness will fade  
If the quest be licked with desire flame  
Rose petals on the trail  
The scent crosses me in detail  
It's effort and the grace in you  
Flowin' down stream  
The waves are too  
Kiss me one time  
One time one time one time  
Baby please don't go away  
Some day I'll be there  
No need to be scared  
Let loose of your fear  
Deep down yes I care  
You can feel it in my stare  
No need to be scared  
One day I'll be there  
I trust in the stars that shade us  
Lost in the sense of your touch  
Alone for the nice remembrance  
You lift, spoke the words of our love  
Yeah, you search for the light of reflection  
I sing the songs of our connection  
Love I found the magic in your eyes  
Searchin' for...
