

Dreamers (feat. Hannah Wants)

[Katy B](#)

Have you ever had a dream ?
There for it to just come true
Finding out what this all means
The power that you hold in you Have you ever had a fear ?
That what you have is not enough
There for it to disappear
Knowing all you need is love Or are we just dreamers ?
Just dreamers
Deceivers
To be us
To scheme us all
Away to make this last forever Dreamers
The dreamers
Deceivers
To be us
To scheme us all
Away to make this last forever Ooh Have you ever had a time
Where the days blend in so on
No more worry on your mind
Your spirit powered by the sun Have you ever had a place
Where you know that you belong
Where you feel like you can fake
This crazy world under the stars Or are we just dreamers ?
Just dreamers
Deceivers
To be us
To scheme us all
Away to make this last forever Dreamers
The dreamers
Deceivers
To be us
To scheme us all
Away to make this last forever Ooh Now we only got 60 days of summer but
If we just let it prolongue, prolongue Ooh
Now we only got 60 days of summer but
If we just let it prolongue, prolongue Or are we just dreamers ?
Just dreamers
Deceivers
To be us

To scheme us all
Away to make this last forever Dreamers
The dreamers
Deceivers
To be us
To scheme us all
