

Till We Try

Just a Band

Uuuu uuu x3

Never know for certain

Never been sure of nothing

Don't really know if we'll workUntil we try

Till we try

Till we try

Until we try

Till we try

Till we try

Yes or no baby

We can never tell what we'll be

Possibilities haven't been exploredUntil we try

Till we try

Till we try

Until we try

Till we try

Till we tryNever know for certain

Never been sure of nothing

Don't really know if we'll workUntil we try

Till we try

Till we try

Until we try

Till we try

Till we tryYes or no baby

We can never tell what we'll be

Possibilities haven't been exploredUntil we try

Till we try

Till we try

Until we try

Till we try

Till we tryCheer up baby don't give up on me

Everything is okay when you are close to me

Riding to the sun is not always fun

But you are the wind beneath my wings

The sail upon the ship

I can be your safety net if you will be my parachute

They are undeniable flying up and up cause'

Rolling with the punches boom boom pow

No matter the weather we're birds of a feather

Not trying to be clever just want you to know
That you're the one for me-eh-eh-ee
