My Lady

Scribe

Yeah, it?s the remix, P-Money on the beat
Ya know how we do it this ma girl?s song
So ladies listen up this 'bout my lady
She knows who she is ay yo let's do it
When I'm with you I feel I can do anything
I can just spread ma wings, I can just say some things
'Cuz I feel comfortable when I?m around you girl
We can do what you like me and you against the world
Ever since the day you came, I haven?t felt no pain
I'll never be the same now I know I love you
More than all my kicks, more than all my clothes
More than all my friends, more than all my flows
More than everything you were there for me
Like you'd said you'd be
(Just like you said it)
Through my darkest day, my coldest night
You'd hold me tight, you said id be alright
Wish I cud turn back time to when you were mine
2 words, me and you lets just get away far away from it all
Lets find a better day everything?s all right
We talked all night on the phone lets go just us all alone
I know I was unsure before but now I see, I love you more
More than all my kicks, more than all my clothes
More than all my friends, more than all my flows
More than everything you were there for me
Like you said you'd be
Through my darkest day my coldest night
You'd hold me tight you said I'd be alright
Wish I cud turn back time to when you were mine
I never thought you would be everything that I need
Everything that I ever wanted in you I can see
And then we made love from the car to the house
To the hall on the wall from the floor to the couch
Then I went away on tour you said you missed my touch
I reply I love you and you asked me how much
More than all my kicks, more than all my clothes
More than all my friends, more than all my flows
More than everything you were there for me
I love you more than all that shit, more than everything

My lady, yeah
