

# Dry

## PJ Harvey

Advisory - the following lyrics contain explicit language:

I caught it in the face  
Coming around again  
I thought it was worth waiting  
You're caught up in my head  
Wet sides from time to time  
But mostly I'm just dry You leave me dry  
You leave me dry  
You leave me dry You've come all this way  
No hair out of place  
You put it all on the stage  
You put right in my face You leave me dry  
You leave me dry  
You leave me dry A water well in sight  
No water at my sides  
I'm sucking on the well  
I'm sucking till I'm white  
But you leave me dry You leave me dry  
You leave me dry  
You leave me dry  
You leave me dry
