Persist

Crosscheck

Take me back
To the way I was
So I can feel this
With just ?

I drown in my senses
And all I see
Is you

And I just want to be near you
And I just want to be near you

Take me back
This is no longer sunny
Dispossession
Upon my face

I quiver in my thoughts
And all I feel
Is you

I just want to be near you
I just want to be near you
I just want to
Want to be
Near you

What is this
Ohhhh what is this
If I persist
If I persist
Ohhhh

Hmmmm
If I persist
If I persist

If I persist
If I persist
