

# Rain Fallin'

[Reba McEntire](#)

Rain fallin', fallin' rain  
It's a long and troubled night  
A night when I wish I could sleep  
But there's no sleep inside  
Heart breaking, breaking heart  
It's such a lonely sound  
That cries for the need of someone  
But there's no one around  
Nobody here to hold  
No one to warm the cold  
That lies deep within  
My soul all around  
Just the sound of the rain falling, fallin' rain  
Like gentle tears of pain  
That comes with my only friend  
It's the gently falling rain  
Nobody here to hold  
No one to warm the cold  
That lies deep within  
My soul all around  
Just the sound of the rain falling, fallin' rain  
Like gentle tears of pain  
That comes with my only friend  
It's the gently falling rain
