

# Truck Driving Man

## Mojave 3

Johnny likes to get away  
Takes himself to sunny Spain  
Eyes on the road, look at him go  
He's a wide load

Feeling at home on the other side  
Feeling the love on the other side  
Heart's on fire, he's back in control now  
He's back in control now  
He's back in control right now

Says he gotta get to Barre  
He's picking up some motor car  
He's up through the Alps  
He'll be doing some laps when he gets there

Love is a truck and an open road  
Somewhere to start and a place to go  
Heart's on fire, he's back in control now  
He's back in control now  
He's back in control right now

Heart's on fire, he's back in control now  
He's back in control now  
He's back in control right now

Feeling the love on the other side  
Somewhere to start and a place to go  
Heart's on fire, he's back in control now  
He's back in control now  
He's back in control right now

Heart's on fire, he's back in control now  
He's back in control now  
He's back in control right now
