

# Lifeline

# Imogen Heap

Freeze frame on me  
Hm, can you read it on my face?  
Data mining from old memories Hm, sunflowers and a smile catching  
Hm, welcoming a heartbeat to the family  
Light tie lanterns, wish bound in the night Who, what, when?  
All in one stir of a teaspoon  
I'm shaken and gasping for air Lifeline, before and after  
In an instant of great white gravity (gravity)  
Hold tight, 'cause all is against me  
Every cell in my body, brace,  
Woah, and keep breathing,  
And keep breathing Gracious future,  
Hm, won't you lend a hand to pull me through?  
'Cause me and you've got some things we need to see to  
(Let's get to work, let's get to work) Adventures in the multi-verse  
Effervescent candlelit closeness  
Plus, I feel like I've just got the hang of this living thing Who, what, when?  
All in one stir of a teaspoon  
I'm shaken and gasping for air, air, air, air I will, on one day,  
And sometime, in some place,  
I've still got some go in me yet Lifeline, before and after  
In an instant of great white gravity (gravity)  
Hold tight, 'cause all is against me  
Every cell in my body, brace (in my body, brace) Rise high, cling to the laughters  
For that moment of broken tragedy (tragedy)  
Bright-eyed, the world is against me  
Every cell in my body, brace,  
Woah and keep breathing,  
Keep breathing,  
Still breathing My bones stay strong,  
My days, still long,  
My heart has many heartbeats,  
And home is where love is Ah  
Ah  
Ah  
Ah Lifeline, before and after  
In an instant of great white gravity  
Hold tight, 'cause all is against me  
Every cell in my body, brace Rise high, cling to the laughters

For that moment of broken tragedy  
Bright-eyed, the world is against me  
Every cell in my body, brace, And keep breathing  
    Keep breathing  
    And keep breathing  
    Keep breathing  
    And keep breathing, ah  
    Keep
