## Chipmunk

I'm just mindin' my business, handlin' business  
There's no love for you blad, it's business  
I'm just mindin' my business, handlin' business  
There's no love for you blad, it's business I do this for [Incomprehensible]  
And daddy's goin' doolally if someone tries to violate me  
Niggas that are in house are tryin' to save me  
It's a minor, nothin' is this world can break me  
I have risen, I have fell, oh yes, I'm still here  
Trying to run up in my drum, they're lucky that I wasn't there Trust me I'm the one to put your money on  
Last thing I do, I'm gonna make it a spare  
See I'm just tryna to blow and they're just tryin' to do the same  
Started at the same place, they still haven't got a name  
Yes I clocked every snake but remains social I'm out 'cause I'm supposed to, not because I'm told to  
I don't know what they told you, my team I stick wid it  
I'm a loyal munk, I don't switch ships every minute, no  
Unlike some their time won't come  
I'll be in this limelight until my life is done I'm just mindin' my business, handlin' business  
There's no love for you blad, it's business  
I'm just mindin' my business, handlin' business  
There's no love for you blad, it's business I said, "I couldn't give two shits, they haven't got two kits"  
I've got a kit, I love now I'm movin'  
I'm just mindin' my business, handlin' business  
There's no love for you blad, it's business And now, man, I'm movin' up  
[Incomprehensible] one of my teams and try and move it up  
If she's done she'll probably give it up but  
I don't give a fuck, pom pom forget what?  
Over chicks I'll never scuff, I learnt that on the streets because  
One man's wifey is another man's beat dog Trust me, hey look, I learned that the hard way  
Fear no evil, trust no gyal, I'm focusin' on my pay  
Doin' things my way, they can't always manage it  
Not all decisions made are made by management You're not a goon, you're a talker boy  
Mr. Munk, I'm a boss not a water boy  
You're not that sorta boy, my fam, no, I'm down G  
There's just a couple man that man don't need around me  
You see I can't take these snakey heads  
True love you got for man then you won't take offense I'm just mindin' my business, handlin' business  
There's no love for you blad, it's business  
I'm just mindin' my business, handlin' business  
There's no love for you blad, it's business I said, "I couldn't give two shits, they haven't got two kits"

I've got a kit, I love now I'm movin'  
I'm just mindin' my business, handlin' business  
There's no love for you blad, it's business You know, I handle my business, leave no witness  
Prove it but they know who did this  
The fits got his pictures  
Another eye with the street boy features I'm not Chip Diddy Chip but I'll flip diddy flip  
Right hook will open up your lip diddy lips  
And don't slip diddy slip 'cau you know what will happen  
I'm a real G than man they just rappin', I swear I just slap 'em I laugh 'cause while they fake it tryna make it  
I'm in the manor in the banger listenin' to lick it  
You know me I'd rather take it  
Young Spray, gun speed catch me on the pavement Look, Chippy stay focus  
Especially make 'em disappear like hocus pocus  
Them man they're some jokers  
They don't handle their business they're broke 'cause I'm just mindin' my business, handlin' business  
There's no love for you blad, it's business  
I'm just mindin' my business, handlin' business  
There's no love for you blad, it's business I said, "I couldn't give two shits, they haven't got two kits"  
I've got a kit, I love now I'm movin'  
I'm just mindin' my business, handlin' business  
There's no love for you blad, it's business
