

# Move It (Radioclit Remix)

## Balkan Beat Box

Move it, we wanna bust your radio  
Move it, double a shot like stereo  
Move it, we move the train to carry y'all  
Ho no no  
Move it, one time let's give it all a go  
Move it, push it on up and let it blow  
Move it, might be the end but you don't know  
Ho no no Life is on top of all  
And it's my favorite  
I might fly with it  
I might drown in it  
I might look aside of it  
but I can't ignore it  
Don't be the ignorant  
Who turns his back on it  
And now we are in a race  
And now u show your face  
If u can't find your place  
then we can show u how to send u to outer space  
to fly on your own We move the train to carry y'all  
So u can skip the barrier  
And move it to your area  
So we can bust your radio  
And speak out through your speakers  
And scream out to the sleepers  
They freak out when they hear us  
we make beats like gorillas  
in this giant concrete jungle  
the digital monkeys on a move  
talking straight, we never mumble  
making sure your dancing feet will move Blue Eyed Black Boy  
(2010)
