Life Goes On

Poison

I felt this before now I feel it again
No matter how hard I try
This feeling won't end
So I pretend you're here by my side
Tonight on this lonely ride
Keep telling myself that
Life goes on while you're miles away
And I need you
Time rolls on as night steals the day
There's nothing I can do
You heal up my wounds
I tasted your tears
You spilled out your heart
So I let out my fears
But one fear that I kept to myself
How I prayed that you'd love no one else
Like you're saying you love me
Life goes on while you're miles away

And I need you
Time rolls on as night steals the day
There's nothing I can do
If you only knew how much I miss you
When my mind plays these tricks on me
It shows me things I don't want to see
That's why I tell myself now
I keep telling myself now
Just take another piece of me
Life goes on while you're miles away
And I need you
Time rolls on as night steals the day
There's nothing I can do
Life goes on you're still miles away
And I need you
And this last mile I travel with you
