Road To Rouen

Supergrass

There's damage out there some place, you got to step aside
Where are you going, that decision is made
That's how it started, too hot and dirty inside
Contain your feelings when there's nowhere to goAnd follow all the signs and they'll lead us away
And it's all good stuff for [Incomprehensible] the world todayTurn off your television, don't be the hatchet man
His time has come and now I'm ready to go
Cut up and fear tap into the nervous system
Retrieve your message, tell me what do I know?And follow all the signs and they'll lead us away
And it's all good stuff for [Incomprehensible] the world today, ohHey, yeahTried on the feeding time
The truth is it's going to get you and it won't let go
I'm isolated, I'm getting nowhere fast
There's no direction, now so where do I go?And follow all the signs and they'll lead us away
And it's all good stuff for [Incomprehensible] the world today, yeah
