No One

Integrity

you talk and you fucking talk
your bullshit never stops
do you think anyone is afraid?
of all the friends you betrayed
who`s gonna back you up now?
Alone in your own little crowd
thinking you`re the one who`s in control
your stupid shit`s getting so old
no one,
your words mean nothing to me
and vengeance...
cross me again and we`ll see
you`ll be the one to fucking pay!
