She Can Ride

Dru

That girl there is looking so fatal
Single lady, and I can feel her halo,
Her body so thick, curving like J.Lo,
Once I get it hooked, ain't no way to say noThe way she walked in, gotta be a psychic,
She ain't tell me y'all, she know how I like it
My heart's racing, hit me with the lightning,
Push it to the limit like she driving, riding.She can ride, she can drop it on the dance floor
Man eater, she can move it like an animal,
Midnight, coming for you like a cannibalShe can ride like she on a roller coaster,
Up and down, anything to get you closer,
So quick to pull your gun out of your holsterThat girl she can ride,
That girl she can ride,
That girl she can ride,
She's inside my mindThat girl she can ride,
That girl she can ride,
Makes me feel alive,
That girl she can rideEvery other man's trying to get her number,
1-triple-8, she be frontin' on ya
Keep you guessin, yeah she makes you wonder,
What she gonna do under the covers(She's a rider) Got her finger on the trigger,
(She's a rider) She got that sight on you,
(She's a rider) Better think before she hits ya,
You're throughShe can ride, she can drop it on the dance floor
Man eater, she can move it like an animal,
Midnight, coming for you like a cannibalShe can ride like she on a roller coaster,
Up and down, anything to get you closer,
So quick to pull your gun out of your holsterThat girl she can ride,
That girl she can ride,
That girl she can ride,
She's inside my mindThat girl she can ride,
That girl she can ride,
Makes me feel alive,
That girl she can rideI know she thinks she's everything,
But what can I do, what can I do, to get my rider girl,
She kept me hanging by a string,
She got me spinnin', round and round.She can ride, she can drop it on the dance floor
Man eater, she can move it like an animalThat girl she can ride,
That girl she can ride,
That girl she can ride,

She's inside my mindThat girl she can ride,
That girl she can ride,
Makes me feel alive,
That girl she can rideThat girl she can ride,
That girl she can ride,
That girl she can ride,
She's inside my mindThat girl she can ride,
That girl she can ride,
Makes me feel alive,
That girl she can ride
