Silver Machine

Hawkwind

I, I just took a ride on a silver machine and still feeling mean
Oh, do you want to ride, see yourself going by
The other side of the sky? You gotta know where I've beenAnd it flies sideways through time, it's an electric line
To all the zodiac signsI got a silver machine
(Silver machine)
I got a silver machine
(Silver machine)
I got a silver machine
(Silver machine)
In my silver machineIt flies out of a dream, it's antiseptically clean
You gotta know what I mean
Oh, do you want to ride, see yourself going by
The other side of the sky in a silver machine?I got a silver machine
(Silver machine)
I got a silver machine
(Silver machine)
I got a silver machine
(Silver machine)
In my silver machineI just took a ride on a silver machine and still feeling mean
Oh, do you want to ride, see yourself going by
The other side of the sky? You gotta know where I've beenI got a silver machine
(Silver machine)
I got a silver machine
(Silver machine)
I got a silver machine
(Silver machine)
In my silver machineSilver machine
Silver machine
Silver machine
Silver machine
