

# Silver Machine

## Hawkwind

I, I just took a ride on a silver machine and still feeling mean

Oh, do you want to ride, see yourself going by

The other side of the sky? You gotta know where I've beenAnd it flies sideways through time, it's an electric  
line

To all the zodiac signsI got a silver machine

(Silver machine)

I got a silver machine

(Silver machine)

I got a silver machine

(Silver machine)

In my silver machineIt flies out of a dream, it's antiseptically clean

You gotta know what I mean

Oh, do you want to ride, see yourself going by

The other side of the sky in a silver machine?I got a silver machine  
(Silver machine)

I got a silver machine

(Silver machine)

I got a silver machine

(Silver machine)

In my silver machineI just took a ride on a silver machine and still feeling mean

Oh, do you want to ride, see yourself going by

The other side of the sky? You gotta know where I've beenI got a silver machine  
(Silver machine)

I got a silver machine

(Silver machine)

I got a silver machine

(Silver machine)

In my silver machineSilver machine

Silver machine

Silver machine

Silver machine
