My Everything

Goldfinger

So I know you take from me
I know you take away my everything, my everything
I know your every way
I know you make your way to everything, into everything
I know your threat runs deep
I know you're in my sleep
And all this time
I find it hard to swallow
I know your history
I know what you mean to me
My everything
My everything
I know your mystery
will not be clear to me
My everything
My everything

I know your threat runs deep
I know you're in my sleep
And all this time
I find it hard to swallow
I know you're mine to keep
I know I'll always be
And all this time
I find it hard to swallow
I know you take from me
And I know you take away my everything, my everything
I know your threat runs deep, I know you're in my sleep
And all this time I find it hard to swallow
I know you're mine to keep
I know I'll always be
All this time
I find it hard to swallow
