Milky White

Radiation City

There's another way
You were born to meet your milk
And be mine
I think to come to come is clear to where it cameThe first kiss
A genius
Wrote down
A hot hit
Then in reaction
We're tolls in time
Yours is mineI can't be you
Honey come make up your mind, oh
I can't be you
Honey come make up your mind, oh
I can't be you
Honey come make up your mind, oh
I can't be youEverybody's evil
Can be loved
Hurry up and make your way
It's a good way to sign
Won't you pray for me?A last kick
A genius
The touch on
A pale horse
And in reverso
Turn sixty-nine
Sixty-one
Shows ocean's way
The show is oursI can't be you
Honey come make up your mind, oh
I can't be you
Honey come make up your mind, oh
I can't be you
Everything for only mine!
I can't be you
Honey come make up your mind, oh
I can't be you
Honey come make up your mind, oh
I can't be you
Honey come make up your mind, oh

I can't be you
Everything for only mine!
