

# Finest Hour

## Wayne Watson

How does it feel out on the ice?  
You speak to the crowd but nobody hears  
It's not a dream and you are no prize  
And you're not alone, come in from the fear  
    Gonna take it back  
    Take back the life that you wanna lead  
    Been under quiet attack  
    But now it's time for you and me  
    Gonna take it back  
    You've got to fight for what you believe  
    We're gonna make this stand  
    The finest hour that we see  
    When did our choice become erased?  
    Where is the violence in this crowd?  
    Now that our voice has been replaced  
    With a silence that screams out loud  
    Gonna take it back  
    Take back the life that you wanna lead  
    Been under quiet attack  
    But now it's time for you and me  
    Gonna take it back  
    You've got to fight for what you believe  
  
    We're gonna make this stand  
    The finest hour that we see, yeah  
    Gonna take it back  
    Take back the life that you wanna lead  
    Been under quiet attack  
    But now it's time for you and me  
    Gonna take it back  
    You've got to fight for what you believe  
    We're gonna make this stand  
    The finest hour that we see  
  
    Take back the life that you wanna lead  
    Been under quiet attack  
    But now it's time for you and me  
    Gonna take it back  
    You've got to fight for what you believe

We're gonna make this stand  
The finest hour that we see, yeah  
The finest hour that we see  
We're gonna make this stand  
The finest hour that we see, yeah
