# Get a Gun

## Oxymoron

What's the matter, could it be
That you wanna prove you're keen?
And a man who's man enough to fightI'm not sorry for you lot
It's your job if you get shot
But you told me that you're not afraidWhat does a hero feel about
When the rest of the fellows lie on the ground?Hurry up, get your gun today
Hurry up, meet your destiny
Hurry up, get your gun today
Join them, join them on the raidHurry up, get your gun today
Hurry up, meet your destiny
Hurry up, get your gun today
Join them, join them on the raidIs your cause worth fighting for
Or a country worth a war?
Hurry up, join the force tonightWhat's the matter, could it be
That you wanna prove you're keen?
And a man who's mad about his prideHurry up, get your gun today
Hurry up, meet your destiny
Hurry up, get your gun today
Join them, join them on the raidHurry up, get your gun today
Hurry up, meet your destiny
Hurry up, get your gun today
Join them, join them on the raid of crimeWhat does a hero feel about
When the rest of the fellows lie on the ground?Hurry up, get your gun today
Hurry up, meet your destiny
Hurry up, get your gun today
Join them, join them on the raidHurry up, get your gun today
Hurry up, meet your destiny
Hurry up, get your gun today
Join them, join them on the raidHurry up, get your gun today
Hurry up, meet your destiny
Hurry up, get your gun today
Join them, join them on the raid, hurry up
