

Timebomb

WALK THE MOON

[Verse 1]

Every night, every day
Ten times outta nine, I'm a hand grenade
I don't wanna push you away, but I'm warning you, babe
This ain't a green light, no serenade
It's a red flag before the mayday
Check all of my signs, keep away, I'm warning you, babe[Pre-Chorus]
Afraid to light the fuse again; start a fire, lose a friend
But when your heart opens, it's like I'm ready to fall again

[Chorus]

Who tripped the red wire out of the blue?
Swept off my feet, said, "God save me now"
How many people dance in a dark room?
Swept off my feet, said, "God save me now"
Is it real love? Is it real love?
Ti-ti-ti-ticking like a time-bomb
I can feel your, I can feel your heart
Ti-ti-ti-ticking like a time-bomb[Verse 2]
Heads up, look alive
The more that I stare into your eyes
The more I get lost in your face; I'm warning you, babe
A red line, danger zone
Point of no return coming real close
Pulling me in, I'm afraid, I'm warning you, babe

[Pre-Chorus]

Afraid to light the fuse again; start a fire, lose a friend
But when your heart opens, it's like I'm ready to fall again[Chorus]
Who tripped the red wire out of the blue?
Swept off my feet, said, "God save me now"
How many people dance in a dark room?
Swept off my feet, said, "God save me now"
Is it real love? Is it real love?
Ti-ti-ti-ticking like a time-bomb
I can feel your, I can feel your heart
Ti-ti-ti-ticking like a time-bomb[Post-Chorus]
Ti-ti-ti-ticking like a time-bomb[Bridge]
Afraid to light the fuse again; start a fire, lose a friend
But when your heart opens, it's like I'm ready to fall again[Chorus]
Who tripped the red wire out of the blue?

Swept off my feet, said, "God save me now"
How many people dance in a dark room?
Swept off my feet, said, "God save me now"
Is it real love? Is it real love?
Ti-ti-ti-ticking like a time-bomb
I can feel your, I can feel your heart
Ti-ti-ti-ticking like a time-bomb[Post-Chorus]
I can feel your heart ti-ti-ti-ticking like a time-bomb
I can feel your heart ti-ti-ti-ticking like a time-bomb
