

Let Them See You (Acoustic)

JJ Weeks Band

Take away the melody
Take away the songs I sing
Take away all the lines
And all the songs you let me write
Does the man I am today
Say the words you need to say
Let them see you, In me
Let them hear you, When I speak
Let them feel you, When I sing
Let them see you
Let them see you in me
Who am I without your praise
Another smile, Another face
Another Breath, A Grain of Sand
Passing quickly through your hand
I give my life, An offering
Take it all take everything
Let them see you, In me
Let them hear you, When I speak
Let them feel you, When I sing
Let them see you
Just let them see you in me...
With every breath I breathe
I sing a simple melody
But I pray they'll hear more than a song
In me
In me
Let them see you, In me
Let them hear you, When I speak
Let them feel you, When I sing
Let them see you
Woahhh
Let them see you, In me
Let them hear you, When I speak
Let them feel you, When I sing
Let them see you
Let them see you in me
Let them see you in me...
