Stars & Lovers

Matt Cardle

All the tears could drown a fire,
The stars would fall and time would stop,
If I could reach a little higher,
If Jupiter was close enough, oh.
I lost my place, I found the answer,
I heard it on, the radio,
If I return and take my chances,
If only I could let her know.
My heart is open and the sky's on fire,
I hear the drum and I hear the choir,
The universe was made for us and, oh oh,
The stars and the lovers,
A universe made for us and, oh oh,
The stars and the lovers,
So let go, hold on to each other.
If I could run a million hours,
And hold the oceans, in my hands,
If I could have one superpower,
It would be to make you understand.

My heart is open and the sky's on fire,
I hear the drum and I hear the choir,
The universe was made for us and, oh oh,
The stars and the lovers,
A universe made for us and, oh oh,
The stars and the lovers,
So let go, hold on to each other.
I lost my place, I found the answer,
I heard it on, the radio,
If only I could let her know.
My heart is open and the sky's on fire,
I hear the drum and I hear the choir,
The universe was made for us and, oh oh,
The stars and the lovers,
A universe made for us and, oh oh,
The stars and the lovers,
So let go, hold on to each other.
Oh oh, the stars and the lovers,
So let go, hold on to each other.
