Free Again

Manic P.

We, are we out of our minds?
We can't live this way forever, forever
So run, run with me from the ordinary
It's our time to escape, lose ourselves
If we can find a way to break this chain
Within the natural cycle
Leave your answers behind
We'll be there to decide
If we can find the strength
To go our own way, to go our own way
It will take your breath away
Will take your breath away
We, are we out of our minds?
We can't live this way forever, forever
So run, run with me from the ordinary
Come on, it's our time to escape, lose ourselves
We finally found a way to make the change
We'll make the change together
Old ways left behind
Chains will loosen over time
We finally found the strength
To go our own way, to go our own way
No longer are we confined
The power of resolution shines
Now we are free again
We are free again
We are free again
Do I have your attention?
Look what we can create
It will take your breath away
Will take your breath away, away
Do I have your attention?
Now's our time to escape
Found the strength to go our own way
Now we are free again
We are free again, again
Now we are free again
We are free again, again, again
We are free again
