

# Soldiers of America

## Madison Rising

Somebody's sister or brother  
Father, son... daughter or mother (come-on)They are the soldiers of America  
They put their lives on the line  
Gave up their own right to freedom  
So you could have yours and i could have mine (alright)They come from the bright light cities  
They come from a one horse town  
But if they're coming for you boy  
You better know they ain't messin' around (because)They do it for me and they do it for you  
And the red white and blue  
Amen to the ones on the battlefield  
Amen to those who fall  
Amen to the women and the children getting caught between it all (they said)  
They'd fight and die for our freedom  
No one had to ask them to go  
Without a moments hesitationFor the red white and blueSo just for one second  
Put yourself in their boots  
Turn your back on everything you know right now  
With the whole world to lose  
(they got)-no dinner with the family  
(they got)-no home, no luxury car  
Just a "welcome to the battle field"  
It's time to go to war (because)They do it for me and they do it for you  
And the red white and blue  
Amen to the ones on the battlefield  
Amen to those who fall  
Amen to the women and the children getting caught between it all (they said)  
They'd fight and die for our freedom  
No one had to ask them to go  
Without a moments hesitation  
For the red white and blueThe red white and blueThe red white and youThe red white and blueThe red white  
and youAmen to the ones on the battlefield  
Amen to those who fall  
Amen to the women and the children getting caught between it all (they said)  
They'd fight and die for our freedom  
No one had to ask them to go  
Without a moments hesitation  
For the red white and blueAmen to the ones on the battlefield  
Amen to those who fall  
Amen to the women and the children getting caught between it all (they said)

They'd fight and die for our freedom  
No one had to ask them to go  
Without a moments hesitation  
For the red white and blue Somebody's sister or brother  
A mother daughter or  
Father or son
