Zebra

Solee

you know you're gold
you don't gotta worry now honey
oasis child
born and so wild
don't i know you better than the rest
all deception, all deception from you
your love is stag
in the white sand
Wilderness for miles
eyes so mild and wise
don't i know you better than the rest
all deception, all deception from you
anyway you run, you run with poise
black and white horse
arching among us

you love is stag
in the white sand
oasis child
born into a mare
don't i know you better than the rest
all deception, all deception from you
Wilderness for miles
eyes so mild and wise
oasis child
born and so wild
don't i know you better than the rest
all deception, all deception from you
anyway you run, you run with poise
black and white horse
arching among us
