

# Closer Than This

## St. Lucia

Off the ground headin for another take  
I remember all the sounds you used to make  
But I keep my down despite the animals on your face  
How many times have I said I've got a feeling we will never get closer than this  
I can't imagine there's a way to get closer than this Catch up with the other kids  
Even falling far behind  
Starlight in the middle of the Ocean  
Opens up my heart tonight I've got a feeling we will never get closer than this  
I can't imagine there's a way to get closer than this  
I've got a feeling we will never get closer than this  
I can't imagine there's a way to get closer than this And I keep on pushin  
Keep on pushin  
Keep on pushin on  
Oh we keep on pushin  
Keep on pushin  
Keep on pushin on I've got a feeling we will never get closer than this  
I can't imagine there's a way to get closer than this  
I've got a feeling we will never get closer than this  
I can't imagine there's a way to get closer than this And we keep on pushin  
Keep on pushin  
Keep on pushin on  
And we keep on pushin  
Keep on pushin  
Keep on pushin on
