

# Two Clouds Above Nine

## Deee-Lite

Just good things today  
Our love's so high  
The needles off the dial  
Like a happy tear in your eye  
You can't hide the smileJust good things today  
I know I got mine  
It's like two clouds above nine  
The ninth degree of love is in our mind  
And we just chose the timeAfter the rain  
I'm on my way to better days  
And I must say  
No puddle's splash keeps me away  
After the rain  
Rainbows find my pot of soul  
I can't complain  
I'm just in from the coldAfter the rain  
I'm on my way to better days  
And I must say  
No puddle's splash keeps me away  
Reflections I've seen  
Like puddles mixed with gasoline  
But I can't complain  
I'm on my way to better days  
Two clouds above nine
