

# **Ghost In the Family**

## **For Selena And Sin**

you took a step closer as they opened the door  
to the dooms so empty and silent... and air so cold  
ghost in the family, it never speak  
ghost in the family, it always...CHORUS:  
come with you and speak, come with you and speak  
come with you and speak voices so thin  
it won't forget, it won't leave  
stab your heart, your heart belongs to sorrow  
night grows inside you, but are you gonna let go?once you had that dream, you touched the mourning sun  
in the darkness of those days, but everything left unsaid, undone  
ghost in the family, it always speak  
ghost in the family, it never...come with you and speak, come with you and speak  
come with you and speak with voices so thin  
it have to forget, it have to leave  
stab your heart, your heart belongs to sorrow  
night grows inside you, will you let go?
