

# Put It Back Together (feat. Damon Albarn)

## Fatboy Slim

I was moving forward  
From the point I've come from  
I was rolling lowly  
This is our song now I was moving forward  
From the point I've come from  
I was rolling lowly  
This is our song now Gotta see it, nothing means I gotta  
Gotta feel it, everything is out  
Gotta hold out, everything is out  
Gotta day in out, just invite them Gotta bore them, till I take us out  
Gotta feel that, every single line  
Gotta clean it out to side  
When we're out down and out Put it back together  
Put it back together  
Put it back together  
Put it back together  
Put it back together Yeah, yeah, yeah  
Yeah, yeah, yeah  
Yeah, yeah, yeah Burning down the city  
Warning out of something  
But I need to find it  
'Cause I got no sun down Dug a whole was so fun  
And a taste that's floating  
What it doesn't meet no  
Place to silent sleep now Gotta feeling, doesn't mean I sad  
Because I love me everything around it isn't  
Better if you sing it loud and I  
Jam myself to dawn I got so much dissing at the side and  
When it's just another ride and you  
Sow yourself to the cat  
Bet it [Incomprehensible] Put it back together  
Put it back together  
Put it back together  
Put it back together  
Put it back together Yeah, yeah, yeah  
Yeah, yeah, yeah  
Yeah, yeah, yeah
