

# Camellia

## Bette Midler

Summertime  
You do what you want  
Oh, the garden go so high  
And the air was full of lead  
Everyday was just like before  
Not a dark cloud in the sky  
Just a lid under your skin  
Hey, imagine it's alright  
Baby blue  
Don't make a sound  
You should listen for the end  
'Cause it's right over the hill  
Don't you cry, you won't feel no hurt  
And just close your baby eyes  
And go wherever you please  
Hallelujah  
Hallelujah  
Hallelujah  
...
