Radio Heart

Los Microwaves

I?ve been waiting by the radio for someone like you
But the people that are calling in today are few and far between
You were listening, their words are dull their syllables slow
But every day I have to call into this show
Last week I decided to give it a go and I caught your ear when I said
I?m a man who sits at his desk
So I guess I?ve got nothing to lose with this request
I want a girl who doesn?t like to dress to impress
A girl with a radio heart, a girl with a radio heart
We?ve never met but we?ve never been apart
A girl with a radio heart
I took a risk and gambled on a voice I didn?t know
Turned up my lonely radio, I leave my job, sell what I own
For someone who knows what the radio knows
Expose what the radio knows, I?ve been waiting by the radio for so long
Then you tuned in, not listening then I caught your ear when I said
I?m a man who sits at his desk
So I guess I?ve got nothing to lose with this request
I want a girl who doesn?t like to dress to impress
A girl with a radio heart, a girl with a radio heart
We?ve never met but we?ve never been apart
A girl with a radio heart
I want a girl who doesn?t like to dress to impress
A girl with a radio heart, a girl with a radio heart
We?ve never met but we?ve never been apart
A girl with a radio heart,
A girl with a radio heart, a girl with a radio heart
We?ve never met but we?ve never been apart
A girl with a radio heart
A girl with a radio heart, a girl with a radio heart
We?ve never met but we?ve never been apart
A girl with a radio heart
A girl with a radio heart, a girl with a radio heart
We?ve never met
