Angels of Fire

The Jezabels

Angels of Fire
I'm here on the outside
This evil within
Has got me addictedIgnitting my bed
When I look around me
It feels like everyone's dead
And darkness is around itI need an Angel of Fire
To light up the way
I'm getting old and bitter
Roll it againAnd I swear
I'll live it every second
Hit me with the rythm of BeyonceOh if I had it again
I'd wanna know
What every part of your body is for
Come back honey (come back)
I'm talking about a come back (I'm talking about a come back)Yeah, if I had it again
I'd wanna know
Where every part does the river flows
So come back, honey
Oh, I really need youAngels of fire
Light up the way
I'm getting old and bitter
Roll it againAngels of Fire
Flocking above
I'm getting old an bitter
Show me some loveAngels of fire (x2)
Come back honey,
Oh, I really need you
Come back honey,
Come backI really need you (x2)
I need you
I really need you.
