Lipstick

Rockie Lynne

Well, enough of this nonsense, baby
We're bigger than this, let's get back to us
And the thrill we felt with our first kissYou know the road can take us
Out where we both feel so alive
Let's go tonight
You can put your lipstick on while I driveWe can go down to old El Paso
Spend the night in New Orleans
Go out to California, like we've always dreamedMakin' love out in the desert
I can watch the sunset in your eyes
Let's go tonight
You can put your lipstick on while I driveWell, I'm tired of this life we're livin'
Dreamin' dead-end dreams
Like a worn-out ol' shag carpet frayin' at the seamsYou know we got to change it
No waitin' 'til the time is right
Let's go tonight
You can put your lipstick on while I driveWe can go down to old El Paso
Spend the night in New Orleans
Go out to California, like we've always dreamedMakin' love out in the desert
I can watch the sunset in your eyes
Let's go tonight
You can put your lipstick on while I driveLet me touch you, let me love you
Let your heart race next to mineWe can go down to old El Paso
Spend the night in New Orleans
Go out to California, like we've always dreamedMakin' love out in the desert
I can watch the sunset in your eyes
Let's go tonight
You can put your lipstick on while I drive
You can put your lipstick on while I drive, while I drive
