

True Hearts

Sizzla

Well I say bless thy people
Save thine inheritance you know
Feed them and lift them up also
Well as it go you check the flow
No slow

True heart will show love
True heart will make up some
Wanting to see him as it was again
Make sure you show love
To see you through he surely does
They wonder where you've been
Oh Zion way

True heart will show love
True heart will make up some
Wanting to see him as it was
Make sure you show love
To see you through he surely does
They wonder where you've been
Oh Zion way

You check fi this
This a no rapper from forward
You love the I, make sure you love my words
Righteousness let it be heard
Rather than you keep going around the curve
A true heart will never be disturb, be clean
And you know where and when to serve
Between the misery are always those
Accompanied with the thought to destruct as your goal
Let's see and not the glory life endorse
So Jah Jah give them up also

True heart will show love
True heart will make up some
Wanting to see him as it was again
Make sure you show love
To see you through he surely does
They wonder where you've been

Oh Zion way
True heart will show love
True heart will make up some
Wanting to see him as it was
Make sure you show love
To see you through he surely does
They wonder where you've been
Oh Zion way

I tell you to be good inside and always
Will be the high point of life
Even when you're up against the wars of the scribes
Others look to you for strength, so things a fi wise
Emperor Selassie I, I call
Only for them to know sey that is all
Nowhere can you go without tho portion
Our day will come, so what ?
Just take you up along
I say, we all got to live in love
Today you make it right, much better tomorrow
Remember Sizzla did done tell you so
Keep your heart clean
And your voice will echo

True heart will show love
True heart will make up some
Wanting to see him as it was again
Make sure you show love
To see you through he surely does
They wonder where you've been
Oh Zion way

True heart will show love
True heart will make up some
Wanting to see him as it was
Make sure you show love
To see you through he surely does
They wonder where you've been
Oh Zion way

True heart will show love
True heart will make up some
Wanting to see him as it was again
Make sure you show love
To see you through he surely does
They wonder where you've been

Oh Zion way
True heart will show love
True heart will make up some
Wanting to see him as it was
Make sure you show love
To see you through he surely does
They wonder where you've been
Oh Zion way
