Lights Out

Broadcast

I'll show you for example
A situation that's like one too
And that can't really look at my time
It's harder in the morningMy room's too small for parties
Too spacious when you're lonely
So books can make us friends
That's as long as we're readingTurn the light's off when you're leaving
I want to watch the car park empty
It's easy when they're strangers to wave goodbyeMy brother's back off holiday
He's been chasing girls in Spain
He said he'd bring me a guitar
Which I said would bring me fameI remember your excitement
Choosing pictures for your wall
And now you've seen them, oh, so often
You hardly see them anymoreTurn the light's off when you're leaving
I want to watch the car park empty
It's easy when they're strangers to wave goodbyeI remember your excitement
Choosing pictures for your wall
And now you've seen them, oh, so often
You hardly see them anymoreTurn the light's off when you're leaving
I want to watch the car park empty
It's easy when they're strangers to wave goodbye
