Street Waves

Pere Ubu

I ride a street wave right by her side
And I can hear the city city comin' round
The things I say hit the air and seem to fall apart
And I can see the faces faces fallin' down
And then I'm
Gone
Gone
Gone by her heartI get a picture of what it'll be like
I turn the channel round to Channel 43
I see electricity jump and spark
I see electricity uh real and stark
And then I'm
Gone
Gone
Gone by her heartI ride a street wave right by her side
And I can hear the city city comin' round
The things I say hit the air and seem to fall apart
And I can see the faces faces fallin' down
And then I'm
Gone
Gone
Gone by her heart
And then I'm
Gone
Gone
Gone by her heart
