

# Sober Driver

## Dengue Fever

Baby

I want to see you tonight

I know it's late

I don't want to fight

I'm at a party

Where am I? (Echo Park)

In Echo Park

The band has stopped playing

The keg is all dry

[Chorus]

You call me up because I'm sober and you wanted me to drive

I'm getting tired of being treated as just a free ride

I finally figured out that your just a thorn in my side

That's withered dull and dry

Baby

How could you say

Such mean, and cruel things to me?

My friends have all gone

I don't know how I got here

It's too far to walk

I'm in four inch heels
