

Can We Talk About It

CoCo Lee

Boy, I know something ain't right
Between me and you
It's plain to see, I haven't spent enough time
Just with you Boy, I feel so bad
I wanna make it up to you
Let's go somewhere quiet
A candlelight dinner for two
Alright Can we talk about it?
Boy, I know we can work it all out
Just give it a chance
Can you think about it?
I wanna spend the time making it alright
Can we keep this love? Now baby, slide over
Let me tell you how I feel
Never gonna let you down no more
Baby, you're the only one I adore So baby, let's chill
See I got this feeling that
Everything's gonna be alright
Take my hand, I like the way
Come on, baby Can we talk about it?
Boy, I know we can work it all out
Just give it a chance
Can you think about it?
I wanna spend the time making it alright
Can we keep this love?
